

Mariam AIT BELLA

Full-Stack Developer

✉ mariam.aitbella200@gmail.com 📞 +212772557553 📍 Rabat

Profile

Full-Stack Developer with 1 year of experience in designing and developing web and mobile applications. Proficient in a range of programming languages and frameworks, including JavaScript, React, Node.js, React Native, Flutter. Skilled in Agile methodologies. Strong problem-solving skills and a passion for innovation and continuous improvement.

Education

Professional Bachelor's Degree in Computer Engineering Sep 2020 - Jul 2021
Faculty of sciences, Agadir

Technical University degree (DUT) Sep 2018 - Jul 2020
Higher School of Technology, Agadir

Experience

Full-stack Developer Aug 2022 - Present
ALPHA10X, Bengueurir

As a full-stack developer at Alpha10x, I helped build a web app and mobile apps for investors in life science using React and for mobile we used React Native at the beginning because we were familiar with react, but then, and as the app gets bigger we migrated to ionic, and finally we made the decision to use Flutter, and it was first time for all the team to work with it, that's why it took us time to learn and not to use it until the app is getting more complex and it was the best framework as it is very close to native. I worked on implementing user-friendly interfaces, contributed to the product vision and strategy, and collaborated with a team of developers to design and develop the apps from scratch. My work allowed me to gain valuable experience in cutting-edge front-end and back-end technologies while contributing to a product with social impact.

Full-stack developer Aug 2021 - Jul 2022
Outdoors, Casablanca

Personal details

Date of birth
December 2, 2000

Driver's license
B

Nationality
Moroccan

Skills

Programming Languages:
JavaScript, Typescript, Dart,
Python, PHP

Frameworks and Libraries:
React, Angular, React Native,
Ionic, Flutter, Node.js, Django

Database Management:
MySQL, GraphQL

Front-End Development:
HTML, CSS, responsive design,
UX/UI design

Back-End Development:
RESTful APIs, server
administration

Agile Methodologies: Scrum,
Agile development
environments

During my internship, I built user interfaces for a mobile app using React Native. This experience allowed me to expand my React Native skills and gain valuable experience in mobile app development.

Internship of the end of studies Apr 2021 – Jul 2021
Univers High Tech, Agadir

During my end-of-studies internship, I collaborated with colleagues to build a car rental website using PHP. My primary responsibilities included working on the back-end and creating dynamic pages. This experience provided me with valuable hands-on experience in web development and working collaboratively in a team environment.

Observation internship Jul 2019 – Aug 2019
Open Concept, Agadir

Certificates

The Frontend Developer Career Path Certificate – Scrimba Apr 2022

Speaking and Writing English Effectively – Alison Sep 2019

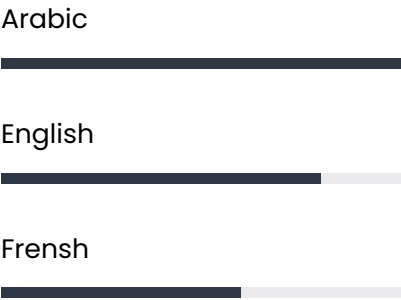

References

References available upon request.

Extracurricular activities

Volunteer Sep 2017 – Present
Chabab Raid Association
association concerned with children activities and summer camps.

Languages
